MEMORANDUM FOR: Chief, Organization and Methods Service

SUBJECT : Staff Study on Economic Intelligence Initiation and Control Throughout ORR.

REFERENCE : Memo dtd 15 Jan 53 to AD/RR fr C/O&MS, same subject.

1. Confirming our conversation on 23 January 1953, I am returning herewith subject staff study together with comments made by the Assistant Director for Research and Reports.

2. On 22 January 1953 I discussed this subject thoroughly with Mr. Amory and assured him that the study had been done for him in a spirit of helpfulness but that if he did not desire to accept the recommendations contained therein he was certainly under no obligation whatever to do so and we were perfectly willing to defer the whole matter for the time being.

3. For your information and guidance, I am also enclosing herewith a copy of a memorandum to the Assistant Director (Personnel) concerning the classification of positions in the Project Initiation and Control Branch, Reports Division, which is a related subject.
